Soft Skills	Proactive, fast learner, good with docs english, owns problems independently
ACTIVITIES	

MONA MEDIA 08/2023 - now

Front End Developer

<u>Lead Front-End Developer (Petdays, Phong Thủy Thiên An)</u>

- Frontend Ownership: Took full responsibility as the main front-end developer, leading the UI/UX and front-end architecture for two e-commerce platforms.
- React & Next.js Development: Built scalable, SEO-friendly e-commerce Uls using Next.js (App Router + SSR/SSG), React, and Tailwind CSS
- Data Handling & API Integration: Integrated GraphQL (for CMS content) and REST API (for fast product search), while managing client-side state and server data across the app using Zustand and React Query for caching, syncing, and background updates.
- Payment Integration: Implemented full VNPAY flow, including redirect handling, transaction callbacks, and order status updates
- UI & UX Focused: Enhanced UX with fluid animations (GSAP, Animista,...) and responsive layouts across 99%+ of devices.
- Performance Boost: Applied lazy loading, code splitting, and image compression to reduce load time.
- **Team Collaboration**: Worked closely with designers and backend developers to ensure clean, production-ready UI <u>Stemhouse Edu</u>
- Rapid Front-End Dev: Collaborate effectively with UI/UX designers and back-end developers to streamline the development process. Used Pug + SCSS to speed up HTML structure by ~50%, enabling faster delivery.
- UX Animations: Delivered a playful and engaging interface with scroll animations (GSAP, AOS) across all screen sizes.
- Improved SEO: Increased website SEO performance via semantic HTML and optimized markup.

NAMTECH SOLUTION 08/2022 - 08/2023

Front End Developer

- Pixel-Perfect UI: Delivered pixel-perfect Uls from Figma for multiple client sites using HTML5, SCSS, and JavaScript.
- Custom WordPress Blocks: Developed and rendered reusable blocks by fetching dynamic content via PHP from the WordPress CMS.
- SEO Optimization: Boosted SEO discoverability through metadata optimization and clean URL structure.
- Version Control & Workflow: Used Git/GitLab for version control, CI/CD flows, and streamlined team deployments.
